

LPWX

LOW PROFILE, WET LOCATION THERMOPLASTIC LED EXIT SIGN

PRODUCT OVERVIEW

The LPWX LED Exit Sign features a low profile design and is suitable for wet locations. Utilizing ultra-energy efficient LEDs the LPWX model uses only 2-4 watts of electricity. The high-quality Exit Store LEDs in this sign will last for 8-10 years and do not require maintenance. The LPWX LED Exit Sign is waterproof and suitable for indoor or outdoor use in wet location areas. The LPWX is low profile, featuring a depth of just 2 inches. This sign is UL924 listed by ETL and comes with a five-year warranty.

EXTERNAL SPECIFICATIONS

The LPWX housing is constructed from durable corrosion resistant ABS thermoplastic. The housing is fully gasketed for wet location applications and is available in white or grey housing with red or green letters.

INTERNAL SPECIFICATIONS

AC Only: Standard 120/277VAC input
Battery Backup: Standard self-powered versions use sealed nickel-cadmium batteries to provide a minimum 90 minutes of operation during an emergency where power is lost.

INSTALLATION

The LPWX Exit Sign mounts flush to the wall and is suitable for wet location installations on normally inflammable surfaces.

DIMENSIONS

9.25" h x 13" w x 2" d
3/4" Letter Stroke, 6" Letter Height

MECHANICAL SPECIFICATIONS

Field removable chevron arrows are standard on the sign face. This sign is offered in a single faced model only. The LPWX is wet location rated. The light source is LED.

ELECTRICAL SPECIFICATIONS

The LPWX is configured with high-output LEDs lamps. LED is standard with 120/277VAC input. Green LEDs consume 2 watts of electricity while red LEDs consume 4 watts.

CHARGER SPECIFICATIONS

A push button test switch allows maintenance personnel to quickly confirm the operational status of the exit sign.

CODE & STANDARDS COMPLIANCE

Certified by ETL to UL924 Standards for Canada and USA
