- Can be used in new construction or as a replacement
- Requires no battery backup
- Made in America

DESCRIPTION

Easy to utilize photoluminescent EXIT sign! The PHOTO series eliminates the need for framing and easily mounts permanently to the wall with no visible fastening devices. Signs are light weight injection molded Polypropylene and the 3/16" back plate is available in Red, Green or Black. The Letters and arrows are 1/8" thick dimensional photoluminescent polypropylene. Signs are ETL listed to UL924 standards at 50', 75', and 100'. Our sign exceeds all major building code requirements. If needed, we can supply ceiling or right angle mounting bracket in 3 available colors. Each EXIT sign comes with 2 arrows so only one sign needs to be ordered and inventoried.
